

# DIGITAL FOOTPRINT QUIZ

## What is your digital footprint?

1. The time spent on social media
2. The locations you have shared on social media
3. The way online activity is monitored to prevent crime
4. The digital 'trail' left by your online activity

## How long does a digital footprint last?

1. 24 hours
2. However long you have that account
3. It is a permanent record
4. It disappears once you delete content

## Who can see/use my digital footprint?

1. Only my friends/family
2. Only the police can access people's information
3. Only me and the people I share it with
4. Potentially anyone

## I regret posting a photo, how do I take it down?

1. You can't
2. The photo can be deleted from your account but this doesn't mean that it hasn't been saved/copied by someone else
3. The photo can be deleted and it will be gone forever
4. If you delete the photo it will be gone in 24 hours, this will also delete it from other accounts

## How could you improve your digital footprint?

1. Make sure your social media settings are on private
2. Only post content that you would be comfortable with anyone seeing (including an employer)
3. Only share with people you know and trust
4. All of the above

## How can you use your social media to create a positive digital footprint?

1. It doesn't matter if it's on private
2. Post lots of content, gain popularity and try to get as many likes and followers as possible – aim for fame!
3. Show how fun and outgoing you are by posting outrageous photos
4. Consider who might view your content in the future and ensure that you are portraying yourself as you wish to be seen
